

Viewing Anaesthesia Medications in the MAR Summary

With the implementation of Theatres eMR, electronic theatres documentation (IntraOp Nursing, Surgeon's Operation Report and the Anaesthesia Records can be viewed via PowerChart.

MAR Summary

- Anaesthesia medications administered in theatres will appear as grey Discontinued in the MAR.
- Medications are fed into the MAR every 5 minutes. However, if changes have been made to any medication during the Anaesthesia it will be fed to the MAR after no changes have been made for 30 minutes.
- Pre-existing medications are reconciled by the anaesthetist as Not Done: Documentation in Anaesthesia.
