

## Interactive View (iView) - Oncology

### General use

- Click on **Interactive view and I&O** in the **Menu**.
- Click the **Oncology** band.
- There are 5 sections available. Click on a section to open.
  - **Measurements**
  - **Cytotoxic**
  - **Nursing Transfer**
  - **Oncology Nursing Discharge**
  - **Oncology Patient Education**

- Click on a **full triangle** to expand a section.
- Click on a **hollow triangle** to collapse a section.
- Double click on the dark blue section heading to activate the column.
- This allows you to add information to the entire section.
- Double click on the light blue subsection heading to add information for the subsection only.
- Choose the desired information and click to add. It will appear in purple.

- When you have entered all the information sign off by clicking the **green tick**. The information will change to black.

- A **calculator** icon indicates that this cell will be automatically filled after all the relevant information has been added to the cells above.

**Note:** See I-view Quickstarts for general information.
