

## Oncology – Staging

### Add Staging

- Open the **Oncology** tab in the Menu.
- Open the **Staging** tab.

- Click on **Add Disease**.

- Fill in the **Onset Date**.  
Press 't' to insert today's date.

- Select the **Staging System** and **Form** from the drop down options.

- Click **Next** and Complete each **Tab** as required. (Tab selections will vary depending on which Staging System was chosen.)

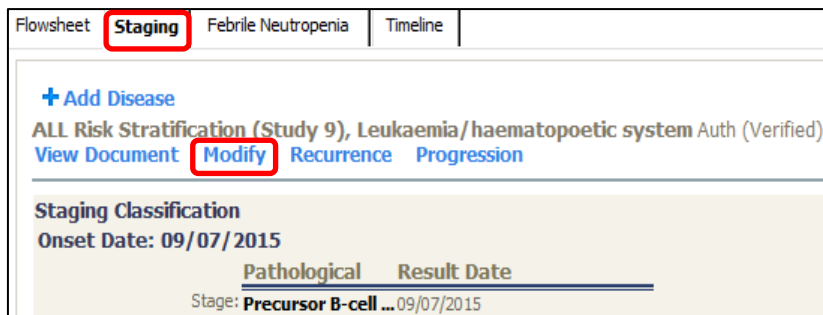

- Sign at the end by clicking the **green tick** and entering your password.

## Modify Staging

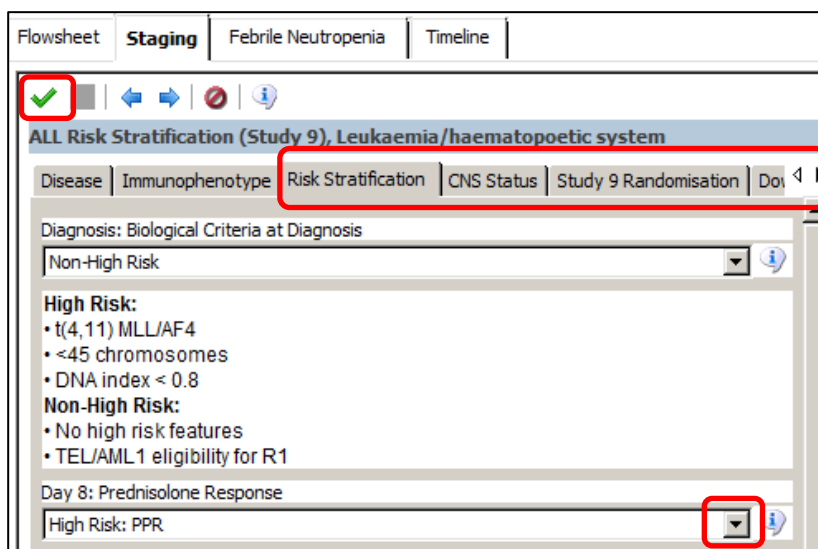

- Select the **Oncology** tab in the Menu.

- Select the **Staging** tab.
- Find the Staging Classification that needs changing.
- Click **Modify**.

- Change appropriate **content**.
- Sign changes in each tab by clicking the **green tick**.

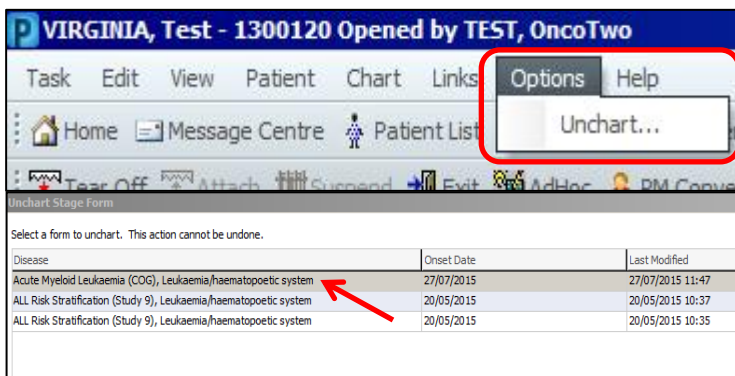

## Delete Staging

- Open the **Oncology** tab in the Menu.
- Open the **Staging** tab.

- Click on **Options** in the tool bar.
- Select **Unchart**.

- Select the Staging you want to unchart.

- Click **OK**.
