

Activating a future PowerPlan/Orders

Turner/MDU PowerPlans are designed to facilitate future visits into a day unit for certain medications. The PowerPlans will include the primary medication and other requirements such as pre-medications, PRN medications, pathology (CHW Only) and prescriptions.

Once ordered, the PowerPlans will sit in the Orders page in a future state. When the patient presents for their appointment and the patient has an active encounter, the PowerPlan will require activation and the medications/tests will be available for use.

The activation process will be slightly different depending on what kind of plan has been ordered

Finding a Future PowerPlan

Future PowerPlans will remain on a patient's file in a **Future** inactivated state.

- From the patient's file, select **Orders**
- From the **View menu**, expand by clicking the **+** symbol next to **Plans**, then **Medical**. The plans section will display Future PowerPlans which will be highlighted by **Future** in brackets.
- **Highlight** the desired PowerPlan by clicking on the Powerplan name

Activating Single Day of Treatment PowerPlans

These PowerPlans are for ordering a single day's worth of treatment on one encounter e.g **Infliximab – Single Dose (Turner/MDU)**.

See below for an example of a single day of treatment PowerPlan:

| Component | Status | Dose | Details | Order Com... |
|--|------------------|---|--------------------------------|--------------|
| Infliximab - Single dose (Turner/MDU) (Future) | Future | 100 mg, IV Intermittent Infusion, ONCE, Ulcerative colitis | | |
| Hydrocortisone | Future | 40 mg, IV Bolus, PRE-OP, Premedication | Target Dose: hydrocortisone... | |
| paracetamol | Future | 300 mg, Oral, PRE-OP, Premedication | Target Dose: paracetamol... | |
| Full Blood Count (FBC) | Future (On Hold) | Blood, Not Collected, Clinician Collect, "Est. 28-Nov-19, Routine, Order for Outpatient or Future Visit | | |
| Electrolytes, Urea, Creatinine (EUC) | Future (On Hold) | Blood, Not Collected, Clinician Collect, "Est. 28-Nov-19, Routine, Order for Outpatient or Future Visit | | |
| C Reactive Protein (CRP) (CRP) | Future (On Hold) | Blood, Not Collected, Clinician Collect, "Est. 28-Nov-19, Routine, Order for Outpatient or Future Visit | | |
| ESR | Future (On Hold) | Blood, Not Collected, Clinician Collect, "Est. 28-Nov-19, Routine, Order for Outpatient or Future Visit | | |
| Liver Function Test (LFT) | Future (On Hold) | Blood, Not Collected, Clinician Collect, "Est. 28-Nov-19, Routine, Order for Outpatient or Future Visit | | |
| Calcium, Magnesium and Phosphate (CMP) | Future (On Hold) | Blood, Not Collected, Clinician Collect, "Est. 28-Nov-19, Routine, Order for Outpatient or Future Visit | | |
| Amylase | Future (On Hold) | Blood, Not Collected, Clinician Collect, "Est. 28-Nov-19, Routine, Order for Outpatient or Future Visit | | |
| Lipase | Future (On Hold) | Blood, Not Collected, Clinician Collect, "Est. 28-Nov-19, Routine, Order for Outpatient or Future Visit | | |

- To activate, click **Activate** (bottom right hand corner)
- Confirm **First Dose Date/Time**

Orders For Signature

| Medications | | | | | | | |
|-------------|--|--|--|---|----------|------------------|---|
| | | | | methylprednisolone (methylprednisolone ... | Activate | 28/11/2019 08:00 | 40 mg, IV Intermittent Infusion, PRE-OP, Pr |
| | | | | infliximab | Activate | 28/11/2019 08:00 | 100 mg, IV Intermittent Infusion, ONCE, UI **HAZARDOUS - special handling required |
| | | | | paracetamol | Activate | 28/11/2019 08:00 | 300 mg, Oral, PRE-OP, Premedication Target Dose: paracetamol 15 mg/kg (Actu |

- If the first dose date/time needs to be changed, adjust the date and time:
 - Click on the **Ellipsis** button next to **Start** date/time at the top of the plan.
 - Change Start Date / Time** window opens – adjust ***Start Date/Time** as required
 - Click **OK**

NOTE: If you untick any of the boxes, those orders will stay at the old start date/time.

Start: 29/11/2019 08:00 1 None ...

Change Start Date / Time

*Start Date / Time: 29/11/2019 0800 2

To prevent the start date/time of a component from being changed, deselect the checkbox in the Adjust column.

| Adjust | Component | Start Date / Time | Status | Order Details |
|-------------------------------------|---|-------------------|--------|---|
| <input checked="" type="checkbox"/> | methylprednisolone (methylprednisolone sodium succinate) | 29/11/2019 08:00 | Future | 40 mg, IV Intermittent Infusion, PRE-OP, Premedication |
| <input checked="" type="checkbox"/> | fexofenadine | 29/11/2019 08:00 | Future | 30 mg, Oral, PRE-OP, Premedication |
| <input checked="" type="checkbox"/> | paracetamol | 29/11/2019 08:00 | Future | 380 mg, Oral, PRE-OP, Premedication Target Dose: paracetamol 15 mg/kg (Actual Dose: 15.2 mg/kg) 28/11/2019 17:54:42 |
| <input checked="" type="checkbox"/> | paracetamol | 29/11/2019 08:00 | Future | 380 mg, Oral, ONCE, PRN nausea & vomiting, Max PRN dose in 24 hours: 1400mg, Post-infusion Target Dose: paracetamol 15 mg/kg (Actual Dose: 15.2 mg/kg) 28/11/2019 17:55:14 |

3 **OK** Cancel

- Click **Orders for Signature** **Orders For Signature**
- Click **Sign**
- Return to the **MAR** to administer the medications

Activating Multi-Day of Treatment PowerPlans

These PowerPlans allow for multiple 'days of treatments' on separate encounters to be ordered in advance e.g. Monthly doses. See below for an example of a multi-phase PowerPlan

| Infliximab Maintenance - 4 weekly (Turner/MDU), 4 weekly Maintenance (Weeks 0, 4, 8, 12, 16, 20) (Future) *Est. 28/11/2019 08:00 - 16/04/2020 08:00 | | | | | | |

- Select **Orders for Signature**
- Confirm **First Dose Date/Time** and change if required.
- Select **Sign**

Note: If there are any orders that have not been completed from "previous days" of treatments you might have trouble activating "today's" orders. **Do not activate days of treatment out of order, because this causes problems too.**

Activating an individual Order if no PowerPlan was ordered

Orders can be made for a future visit without a PowerPlan. Ensure that you're not activating an order that is associated with a PowerPlan as this creates issues around the PowerPlan. Orders that are part of a

PowerPlan will have the PowerPlan symbol next to them

- From **Orders**, Right Click over the order and select **Activate**
- Confirm the **First Dose Date/Time** and change if required
- Select **Orders for Signature**
- Select **Sign**
